Hettiarachchi L.S	IT19132310	<ul style="list-style-type: none"> • Lack of a proper bottom navigation and nested level of UIs in the side navigation makes it hard for the user to achieve even small tasks such as booking flights and discovering flight information • Information is clustered together, and whitespace isn't properly used in the application. Therefore, it is hard for the user to focus on the main tasks in the system • Improper usage of typography (font family, size, weight...)
Jayadeva A.S.V	IT19139036	<ul style="list-style-type: none"> • Lack of uniformity throughout the application and a proper usage of icons. • Lack of labels/ place holders in forms making it hard for the user to interact with forms
Palliyaguruge D.N	IT19120980	<ul style="list-style-type: none"> • Lack of a global sign in and session management makes it hard for the user to achieve tasks within the application • Issues with downtime inherent to some services
Fernando K.D.A.B	IT19146898	<ul style="list-style-type: none"> • Forms have a lot of information to be input by the user and very little sliders and dropdowns increasing the places where users can make mistakes • Issues with improper use of color science and contrast in the application hiding vital information which are supposed to be highlighted
